

Potential Areas of Environmental Justice Concern

based on 2000 U.S. Census data

12.5 % of Indiana residents have identified themselves as members of a racial minority. On this map, census areas in which 25 - 100% of the residents are members of a racial minority are classified as a high racial minority population.

25.75 % of Indiana residents live in households that receive an income that is less than or equal to twice the poverty-level income. Such households are classified here as "low income". On this map, census areas in which 51.5 % - 100% of residents live in low income households are classified as low income populations.

3.5 % of Indiana residents have identified themselves as members of a Latino or Hispanic minority. On this map, census areas in which 7 - 100 % of the residents are members of a Latino or Hispanic minority are classified as a high Latino/Hispanic population.
